# Publication of DUoS Charges

- All distribution companies provided indicative DUoS tables in company specified excel format in Dec. 2005
- Distribution companies have agreed to provide final DUoS charges in common excel format in Feb. 2006
- ENA COG agreed to provide the final DUoS charges for all companies in common excel format after 1 April 2006

# Common format for DUoS Charges

- Proposed format presented at ISG on 13 Dec. '05
- A request for G-DUoS tables and LLF look-up tables:
  - Distribution companies agree to provide G-DUoS charges alongside the DUoS charges; and
  - Distribution companies decline to provide LLF look-up tables.

# Common format for DUoS Charges

- One response received (from a supplier)
- Response to queries:
  - Agree to be consistent
    - column headings
    - profile classes descriptions
    - unit rate(s) descriptions
  - Agree to include out-of-area DNOs charges
  - Agree to provide explanatory notes on acronyms used in tables but not excess reactive power charging thresholds
