Notice under section 11A (3) of the Electricity Act 1989 – proposed standard licence condition 9B of the electricity distribution licence – Distribution Connection and Use of System Agreement

Dear David,

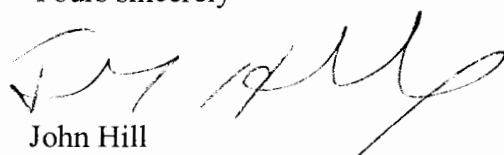

I refer to the letter from Nick Simpson of the 13 January 2006 in connection with the above matter. Central Networks would wish to make the following comments on the above proposed licence condition.

Please note that the response is provided for both Central Networks East and West

I can confirm that Central Networks fully endorse Ofgem's proposal as we believe that the right way forward is for relevant industry participants to be party to the Distribution Connection and Use of System Agreement and which is governed by an appropriate mechanism.

We further believe that the work carried out by the Consolidation Group will pave the way forward in achieving such agreement.

Yours sincerely

John Hill
