Dear Michael,

**Consultation on modifications to Statements of the Basis for Transmission Owner Charges**

Thank you for the opportunity to comment on proposed modifications to the statements. I have one comment on behalf E.ON UK.

Regarding the draft statement of Scottish Hydro-Electric Transmission Ltd (SHETL), a section has been written into pages 14/15 titled "Self-Build" Option'. For clarity, confirmation would be helpful that the text refers to "Contestability in Construction" (as described in Chapter 6 of The Statement of Connection Charging Methodology). At present it is assumed that "Self-Build" applies to contestable works.

Yours sincerely,

Ben Sheehy
