

The normal method of navigating to the suite of Gas Operational Data web pages is through the *nationalgrid.com* home page.

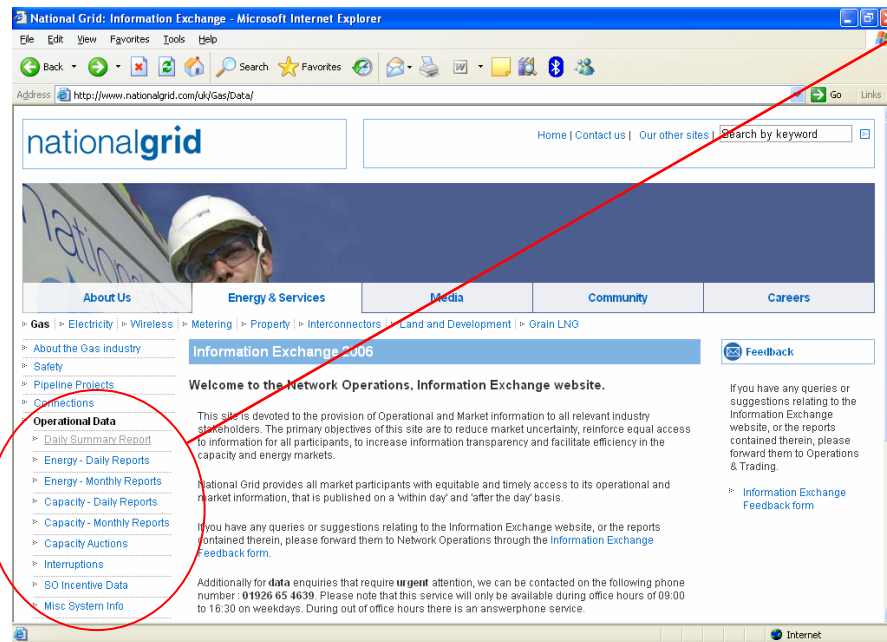

Select "Gas" then
"Operational Data" to
access the Information
Exchange Web Page

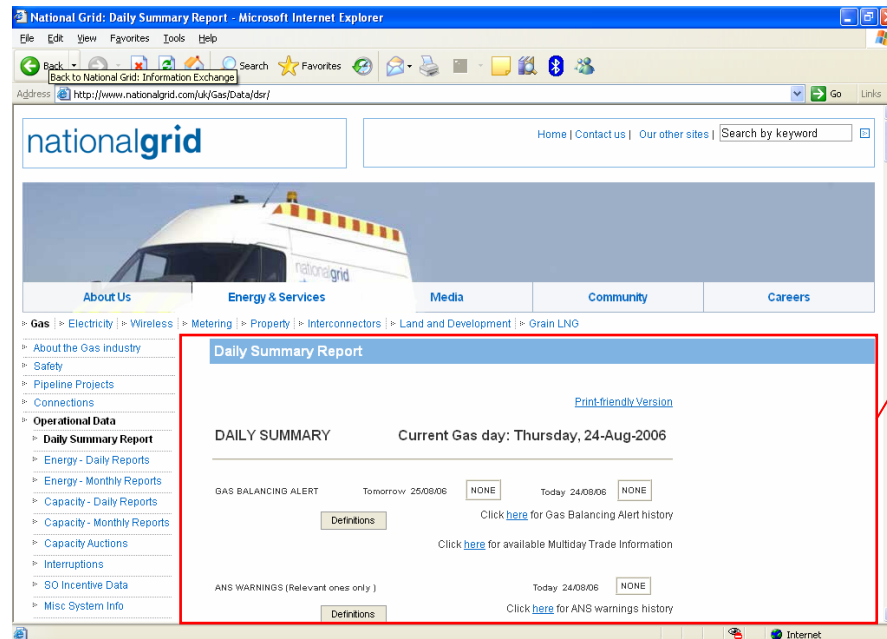

From here, the web page containing the required data can be selected.

Suite of web pages containing various data items

More experienced web users may like to know that there are a number of alternative URLs that can be used to access the reports directly. You may wish to try to use the alternative URL if you experience any issues with *nationalgrid.com*

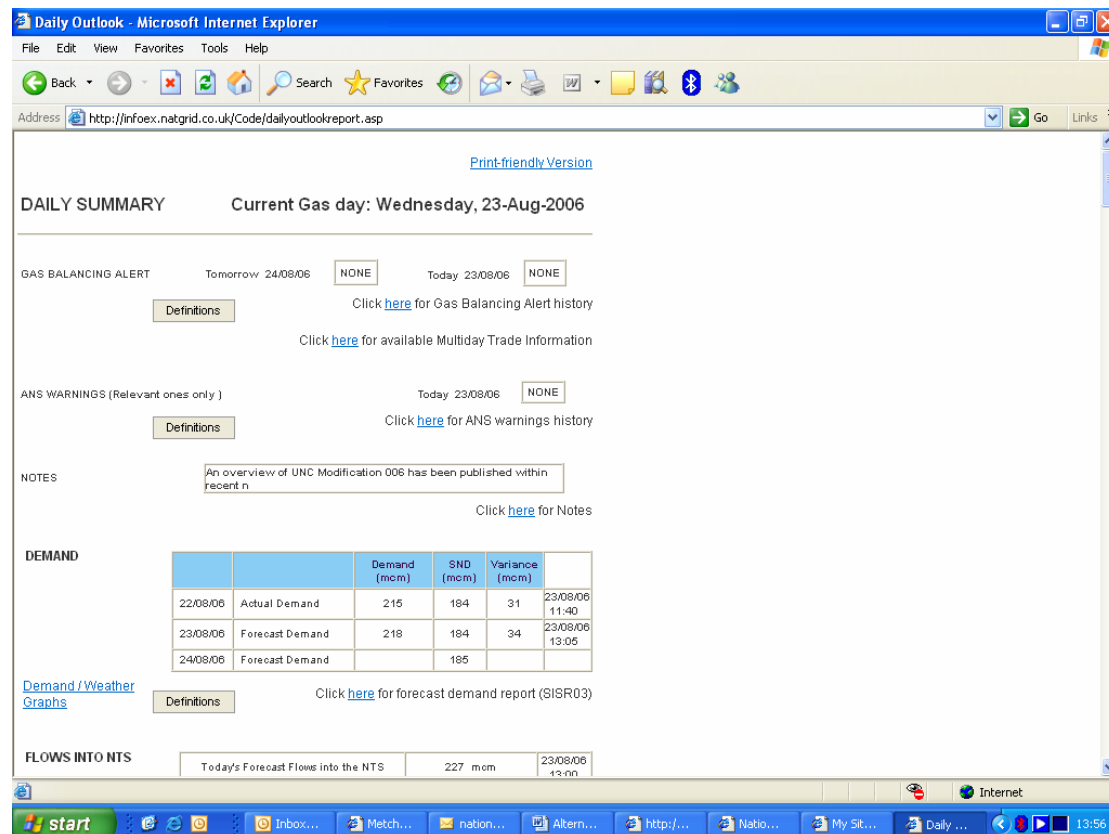

Specific data items for the DSR web page can be viewed on their own by use of direct access URLs

For instance the web page accessed via the URL shown here <http://www.nationalgrid.com/uk/Gas/Data/dsr/> can also be accessed via the following two URLs.

<http://infoex.natgrid.co.uk/Code/dailyoutlookreport.asp>
<http://www.info1.transco.co.uk/code/dailyoutlookreport.asp>

The only difference being that the National Grid frames and side menus are missing.

The following tables list all alternative URLs.
