

Timetable for Gas Quality Scenario Development Workstream

The following meetings have been scheduled. The purpose and outcome of each meeting is described below.

Date	Week	Event	Description	Location	Time
23-Oct-06	1	Main Forum Meeting 1 - Scenario Development Workshop	Development of initial scenarios for evaluation	Ofgem	2-5pm
10-Nov-06	3	Working Group Meeting 1 - Initial Meeting	Discussion of scenarios to evaluate	National Grid	10am - 1pm
07-Dec-06	6	Working Group Meeting 2 - Preliminary Findings	Discussion of preliminary results	GTS (Schiphol Airport)	11am-2pm
18-Dec-06	9	Main Forum Meeting 2 - Final Forum	Evaluations agreed and probabilities assigned	Ofgem	2-5pm
12-Jan-07	12	Final Document Published		N/A	N/A

 Main Forum Meeting

 Working Group Meeting

 Final Document

Main Forum Meeting 1 - Scenario Development Workshop

Date: October 23rd

Location: Ofgem

Attendees: All interested parties

Purpose: To develop a range of gas supply scenarios for the medium to long term. To gain the industries view of what supply scenarios may eventuate.

Outcome: A group of willing volunteers to take forward the evaluation work (IUK, Fluxys, NG, Centrica, GTS, Upstream producers representative, South Hook LNG).

Working Group Meeting 1 - Initial Meeting

Date: November 10th

Location: National Grid (Warwick)

Time: 10am – 1pm

Attendees: (IUK, Fluxys, NG, Centrica, E.On, EDF, GTS, Upstream producers representative, South Hook LNG, Ofgem)

Purpose: To finalise matrix and allocate evaluation roles and to agree basis for evaluation.

Outcome: A matrix of gas supply scenarios v gas quality possibilities. Allocation of roles to evaluate these scenarios. Agreed timeline for evaluating these scenarios. Agreed basis for evaluation.

Working Group Meeting 2 - Preliminary Findings

Date: December 7th

Location: Schiphol airport, the Netherlands

Time: 11am-2pm

Attendees: (IUK, Fluxys, NG, Centrica, E.On, EDF, GTS, Upstream producers representative, South Hook LNG, Ofgem)

Purpose: Working group to provide feedback on 'straw man' constructed by Ofgem/NG. Discuss preliminary results before presenting them to the main group.

Outcome: Final findings.

Main Forum Meeting 2 - Final Forum

Date: December 18th

Location: Ofgem

Time: 2-5pm

Attendees: all interested parties

Purpose: To present final findings to main group and to gain industry perspective of range probabilities of each 'cell' occurring.

Outcome: Agreed range of probabilities of each scenario occurring. Agreement on the working group findings.

Final Document

Date Published: 12th January

Details: The key output of this work stream will be a published document to all market participants which can be used in considering whether investment in blending or ballasting is economic and efficient. This will include the evaluated matrix and associated probabilities.
