30 November 2006

Dear Mr Hussain

Revocation of Electricity Supply Licence

Ofgem's open letter of 24 November regarding the review of its policy on licence revocation has prompted us to review our need for an electricity supply licence. As the rights under the licence have not been used for a considerable number of years and are unlikely to be required in the foreseeable future, Accord would like to surrender its electricity supply licence.

Please can you let me know whether you require any further information in order to progress this request and also provide an indication of the procedure to be followed and the likely timescale for revocation to be completed.

Your sincerely

Nick Lumley
