

Electricity Information Provision

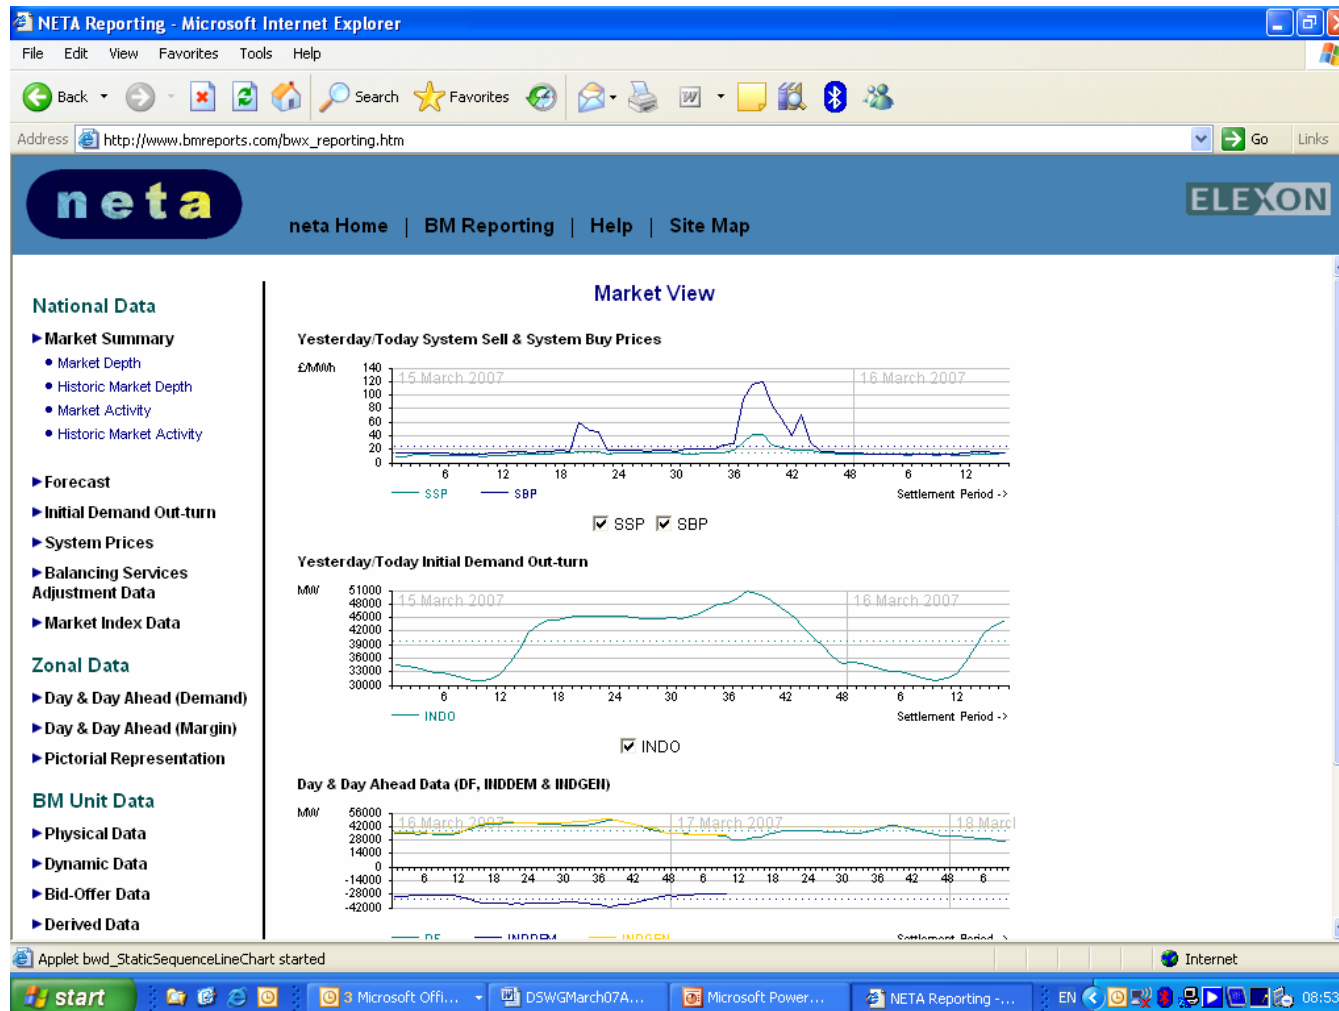

Paul Gallagher

Electricity Market Information

Balancing Mechanism Reporting Service (BMRS)

- ◆ Site providing vast majority of electricity information
- ◆ Set up at NETA implementation and provided by Elexon :
 - ◆ http://www.bmreports.com/bwx_reporting.htm
- ◆ Subject to flexible governance
- ◆ Reporting requirements defined in Balancing and Settlement Code
 - ◆ Section V

www.bmreports.com

nationalgrid

Balancing Services Information National Grid Website

- ◆ Information on NG website updated following transparency review in 2005
- ◆ Information mainly on contracted Balancing Services
 - ◆ Procurement
 - ◆ Tender reports
- ◆ Supplemental key information to help industry understand what actions the System Operator is likely to take :
 - ◆ Increase transparency of SO actions
 - ◆ Not intended to replace BMRS

Developing Electricity Market Information

- ◆ Changes to information on BMRS (i.e. provision of new information) can be made by raising a BSC modification
 - ◆ Assessed against code objectives by an industry working group
 - ◆ Decision by Ofgem
- ◆ Current review projects
 - ◆ Project ISIS run by Elexon is reviewing information and format of market information on BMRS
 - ◆ ETSO initiatives
- ◆ Demand Side / DSWG needs to ensure its interests are represented in a coordinated way to the above initiatives
