

Monitoring requirements for energy efficiency measures

Measure	Technical monitoring	Consumer satisfaction monitoring	Consumer utilisation monitoring
Cavity wall insulation	5% of recipient households	1% of recipient households	
Loft insulation	5% of recipient households	1% of recipient households	
DIY loft insulation			Statistically significant sample of 1% of recipient households
Internal & external insulation	5% of recipient households	1% of recipient households	
Hot water tank jackets			
Radiator panels			
Draught proofing	5% of recipient households	1% of recipient households	
DIY radiator panels			Statistically significant sample of 1% of recipient households
Boiler upgrades (and controls)	5% of recipient households	1% of recipient households	
Heating controls only			
Ground source heat pumps	5% of recipient households	1% of recipient households	
Solar water heating	5% of recipient households	1% of recipient households	
Fuel switching	5% of recipient households	1% of recipient households	
CHP	CHPQA certificate	1% of recipient households	
Micro CHP	5% of recipient households	1% of recipient households	
CFLs – direct			Statistically significant sample of 1% of recipient households
CFLs – retail
