

A Distribution Network Operator's Perspective

Liz Spierling Commercial Manager - Transportation

Emergency Arrangements

Emergency Arrangements

- GS(M)R 1996 Safety Case obligations
 - Safety Case requires the NEC to:
 - Prevent a Network Gas Supply Emergency from occurring; and,
 - If one should occur Minimise the risk to the general public.

Maximise use of NTS Linepack Stage 1 **Maximise use of Network Storage Emergency Specification Gas Potential Emergency Interruption** Stage 2 Maximise beach gas **Maximise Storage Declaration** Suspension of gas market Stage 3 - Interconnectors Firm Load Shedding - Non domestic Firm Load Shedding - Public appeal Stage 4 **System Isolation** Isolation Stage 5 **Restoration of gas supplies** Restoration

Planning for Winter

- Network Planning
- Winter Operations
- Emergency Planning

Planning for Winter

- Network Planning
 - 1 in 20 obligation
 - Network Reinforcement Programme
 - 5 year and within year
 - Network Validation

Planning for Winter

- Winter Operations
 - Monitor project progress to meet "gas on" dates
 - Ensure contingency plans in place
 - Cooperate with Distribution National Control Centre to develop Winter Ops Plan
 - Implement Winter Ops plan

Emergency Planning

- Preparing for Winter WWU
 - Emergency Contact Details
 - Operation Neptune (September 6/7 2006)
 - Load shedding of 600 customers within WWU Network
 - Quality of contacts still an issue exercise has been repeated with top 200 sites
 - Safety Case Compliance
 - Development of load reduction profiles
 - Improved liaison with major consumers

Emergency Planning

- Preparing for Winter WWU
 - Winter Preparedness Seminar for Large Customers and their Shippers (September 2007 - date to be confirmed)
 - Bi-lateral Customer meetings

Emergency Planning

- Preparing for Winter Shippers and Customers
 - Emergency Contact Details
 - Shut down procedures to ensure safety and plant integrity
 - Business continuity and risk management
 - IGE/GL9 "Responding to cessation of gas supply"

Priority Customers

A priority customer is someone who has met the criteria laid down by the Secretary of State.

- Category A Hospitals Homes for the elderly
- Category B As above but on interruptible contracts (5 hrs notice)
- Category C Major items of plant in excess of £50 million
- The Emergency strategy may facilitate the supply of gas to priority customers.

Priority Customers

- dti consultation
 - **Closed:** 20-10-06
 - Report due soon
- Shippers and Consumers need to ensure sites are registered with xoserve

DN Interruption Reform

- Possible Impact on Gas Supply Emergency
 - Lower interruptible volumes contracted
 - emergency escalates to stage 3 more quickly
 - DN investment delivers more secure network
 - lower probability of emergency developing
 - Storage monitors may need to be increased if newly redesignated firm sites are not DM
 - emergency escalates to stage 4 more quickly
