20 July 2007

Dear Colleague

### **BSI-PAS 55 Certification**

Our last Open Letter<sup>1</sup> requested each Network Company to report to Ofgem, by April 2007, on the point in the certification process that it had reached. This letter is a reminder. The Open Letter requested the following information.

- Network company name:
- For Companies already certified:
  - Date BSI-PAS 55 Certification achieved
  - Auditor's executive summary of the certification audit report (max 2 pages)
  - Date when re-certification becomes due
  - Auditor's executive summary of each surveillance visit (as appropriate)
- Companies not yet certified:
  - Point in the BSI-PAS 55 certification process reached
  - Company estimate of earliest and latest date they anticipate certification to be achieved.

As indicated in the Open Letter, Ofgem proposes to publish all of the above (apart from the estimated certification dates) on a dedicated page of the Ofgem website.

We note that some companies provided some of this information by April this year, but for completeness we request that all the information is submitted by 17<sup>th</sup> August (preferably electronically) to Steve Argent Email: [steven.argent@ofgem.gov.uk](mailto:steven.argent@ofgem.gov.uk)

Yours sincerely

**JOHN SCOTT**  
Technical Director
