Dear Bob,

Thank you for your letter of 3rd July regarding the role of SP Transmission in the offshore electricity transmission project.

We can confirm that the existing compliance arrangements that we have in place for compliance with Special Condition C of our transmission licence are adequate to manage confidential information relating to the offshore transmission project.

We do not have a related business to participate in the offshore transmission regime. However, it is possible that we may establish such a business. We will inform Ofgem without delay in the event that we decide to establish such a business.

Our nominated points of contact for the offshore project in relation to the STC and GBSQSS drafting are:
