## Network company progress towards BSI PAS 55 certification

In July 2007 [weblink to letter] Ofgem asked companies to report on their progress towards certification to BSI-PAS 55. At the beginning of August 2007, 7 of the major network companies had already achieved certification and the remaining 6 indicate that they are making progress towards this aim and all expect to be certified by April 2008.

In summary the 7 companies that are already certified as compliant with BSI-PAS 55 are:

\*Note the Auditor Summaries often refer to minor non-conformances etc. Ofgem recognise that such references are to be expected in such audits and, to an extent, reinforce the BSI-PAS 55 theme of seeking continuous improvement. None of those mentioned in these summaries are considered to pose significant regulatory concern.

Ofgem has received updates from the following 6 network companies on their progress towards certification: .
