Dear Sir / Madam,

**Modification Proposal to the Use of System Charging Methodology: Revised IDNO charging (WPD/WALES/WEST/UOS006) - Intention to consult**

On 19 October 2007, Western Power Distribution (WPD) submitted to the Gas and Electricity Markets Authority (the 'Authority') a proposal (WPD/WALES/WEST/UOS006) to modify their use of system (UoS) charging methodology.

The proposal modifies the UoS charging methodology statement in changing the method by which charges for independent distribution network operators (IDNOs) are determined.

Having considered the issues raised in the proposal, the Authority has decided, in accordance with Standard licence condition (SLC) 4(6), to consult with the industry on the proposed modification.

According to SLC4(6) we are therefore notifying you of our intention to consult on this matter.

Please contact Alberto Prandini on 0207 901 7281 if you have any queries in relation to the issues raised in this letter.

Yours faithfully,

Martin Crouch  
Director, Distribution  
Signed on behalf of the Authority and authorised for that purpose by the Authority
