Dear Sir

Review of Industry Code Governance

Please find attached Airtricity's response to your open letter of 28 November 2007, inviting views on the issues raised.

We believe that effective and timely Industry Code Governance over the next five years will be an essential element in facilitating both the further development of competitive markets in the UK and investment in renewable generation. Given the changes which are, or are planned to happen across the wider energy arena, this review represents a timely opportunity to address areas which are constraining the effective deployment of renewables, and thus better facilitate the achievement of government energy and climate change objectives.

I hope that you find this submission useful. Please do not hesitate to contact me if you require further information or clarification.

Yours faithfully

Robert Longden
UK Regulatory Affairs Manager

Encl.
