Dear Ms Piggott

**Energy Action Scotland Response to:
Monitoring suppliers' social initiatives – proposed reporting framework**

Please find attached the response by Energy Action Scotland (EAS) to the above noted consultation document.

We feel that the time allowed by Ofgem for responding to this important consultation was insufficient and we would recommend that more time is allowed for responses in future.

In line with EAS normal practice, the document need not be treated as confidential, and may be published on the Ofgem website and library.

Yours sincerely
