### **Income Adjusting Event for the Beaulieu-Denny Public Inquiry**

Dear David,

Centrica welcomes the opportunity to comment on SHETL's proposals for permitting expenditure to account for the Beaulieu-Denny public inquiry costs. We believe that it is important to progress the upgrade of the Beaulieu-Denny transmission line to enable timely connection of projects in the GB Queue. As a result, we feel it is appropriate for SHETL's transmission licence to be modified to allow the additional expenditure.

If you have any questions or comments relating to this response, please contact me on the number above or at [laura.jeffs@centrica.com](mailto:laura.jeffs@centrica.com)

Yours sincerely

Laura Jeffs  
Commercial Manager
