Collective Licence Modification intended to deliver the electricity distribution structure of charges project at higher voltages and governance arrangements

On 31 July we published a Notice under section 11A(3) of the Electricity Act 1989. This statutory consultation document seeks views and representations in relation to our proposals for delivering the structure of charges project and is published on the Licensing area of our website at:

[Collective Licence Modification Proposal - ref 91/09](#)

The proposals underlying this statutory consultation document are explained in more detail in our decision document regarding the structure of charges project at extra high voltage and governance arrangements:

[Decision on extra high voltage charging and governance arrangements - ref 90/09](#)
