

NOTICE OF PROPOSED MODIFICATION OF SPECIAL CONDITION C8E OF NATIONAL GRID GAS PLC'S GAS TRANSPORTER LICENCE IN RESPECT OF ITS NATIONAL TRANSMISSION SYSTEM UNDER SECTION 23 OF THE GAS ACT 1986

The Gas and Electricity Markets Authority ("the Authority") hereby gives notice pursuant to section 23(3) of the Gas Act 1986 ("the Act") as follows:

1. The Authority proposes to modify the gas transmission licence held by National Grid Gas plc ("NGG") ("the Licence") granted or treated as granted under section 7 of the Act by amending Table 2 of Annex A to special condition C8E 'NTS gas exit incentives, costs and revenues' ("the Condition") in the manner set out in Schedule A of this Notice.
2. The reason why the Authority proposes to make this licence modification is to minimise triggering of incremental exit capacity when applications for increased exit capacity holdings can potentially be met from the existing network. The reasons are set out in full in the letter entitled 'Gas enduring offtake regime: Licence modification consultation on aggregating baselines at Didcot, Stallingborough and Staythorpe', with reference number 105/09, published on 20 August 2009.
3. The effect of the proposed modification is to merge offtake points and aggregate exit baseline obligations for three pairs of Direct Connect ("DC") offtake points.
4. A copy of the proposed modification and other documents referred to in this notice are available (free of charge) from the Ofgem library (telephone 020 7901 1600) or on the Ofgem website (www.ofgem.gov.uk).
5. Any representations or objections to the proposed licence modifications may be made on or before 17 September 2009 to: Richard Miller, Office of Gas and Electricity Markets, Third Floor, Cornerstone, 107 West Regent Street, Glasgow, G2 2BA or by email to gas.transmissionresponse@ofgem.gov.uk.
6. All responses will normally be published on Ofgem's website and held in the Research and Information Centre. However, if respondents do not wish their response to be made public then they should clearly mark their response as not for publication. Ofgem prefers to receive responses in an electronic form so they can be placed easily on the Ofgem website.
