

Promoting choice and
value for all customers

DNOs' proposal submission of the common distribution charging methodology (CDCM) at lower voltages, August 2009

On 25 August the DNOs jointly submitted the CDCM proposal for the approval of the Authority. The documents below represent the CDCM submission package:

[Common Distribution Charging Methodology \(CDCM\) Report](#)

[Appendix A: Summary of Responses to the Common Distribution Charging Methodology Consultation June/July 2009A](#)

[Appendix B: Draft Common Distribution Charging Methodology](#)

[Appendix C: Illustrative Use of System Charges and Distribution Time Bands](#)

[Appendix D: Explanations of Significant Tariff Movements](#)

[Appendix E: Areas of Risk for Delivery of the Common Distribution Charging Methodology](#)

For additional background material as well as the DCM models refer to the Energy Networks Association's website at:
