

**Electricity Distribution Price Control Review Initial Licence Drafting Consultation (Ref. 128/09) – Supplementary comments**

Licence Ref.	Proposed modification	Reason
44B.1(a)	Change 'Regime that' in the second line to 'Regime, which'	The clause immediately following these words is a non-defining rather than a defining clause and as such should be introduced by 'which' rather than by 'that'. The clear inference created by use of the word 'that' here is that there are a number of Distribution Losses [Reporting] Regimes and that the clause beginning 'will enable ...' is defining which of them is being referred to here: this clearly is not the case
45A.12	Change 'non incentivised' to 'Nonincentivised'	'Non' is a prefix (ie a syllable or syllables added to the beginning of a word to alter its meaning) – it is not a word in its own right
CRC8.1	Change 'that' in the second line to ', which'	As above in respect of 44B.1(a). If the wording is left as it is it carries the sense that some of the term IL applies in CRC5 and some of it applies elsewhere, or that there is another term IL that doesn't apply in CRC5.
CRC9.1	Change 'that' in the second line to ', which'	As above in respect of 44B.1(a)
CRC11.1	Change 'that' in the second line to ', which' Check whether there is an additional (superfluous) space between 'Charges:' and 'total' in the third line	As 44B.1(a) above To ensure correct punctuation
CRC12.1	Change 'that' in the second line to ', which' Check whether there is an additional (superfluous) space between 'Charges:' and 'Generation' in the third line	As 44B.1(a) above To correct possible layout error
CRC13.4 CRC13.18(a)	Change 'which' to 'that' in the first line Change 'which' to 'that' in the second line	The words that follow constitute a defining clause and, as such, should be introduced by 'that' rather
