Wednesday 4 August 2010

Dear Gareth

This response relates to the Notice of the requirement on DNOs to establish a DG Connections Guide and DG Information Strategy. As you are aware this subject was discussed during meetings of the Environmental Issues Working Group (EWG). DNOs worked with Ofgem to identify how the existing DG Connections Guide could be improved to better meet customer needs and to consider what elements could constitute a DG Information Provision Strategy. The DNOs, through the Energy Networks Association, worked together to produce a revised DG Connections Guide which is acknowledged to be in line with the aspirations set out by the EWG. The Notice reflects the conclusions of the EWG and consequently I have no representations to make on behalf of Central Networks. I note that the document will come in to effect on 11<sup>th</sup> August 2010.

Yours sincerely

[by email]

Sean Gauton
