

As per your consultation *Ref: 112/10*, I am responding on behalf of London Underground Ltd on the proposal to revise the timeline in respect of work to deliver common methodologies and more cost reflective charges to customers at the highest (EHV) voltage levels.

LU welcome the proposal to formally derogate DNOs from the licence requirement to submit by 1 September 2010 deadline and set 1 February 2011 as the new deadline, and to extend the implementation date to 1 October 2011

It is the view of London Underground (LU) that the revised timeline will be beneficial to this consultation and will allow for a more considered outcome for customers such as LU who are significantly impacted by these charges.

Regards  
Colette
