7<sup>th</sup> September 2010

Dear Paul

**Notice under section 23(3) of the Gas Act 1986 - Proposed modification to Paragraph 9(c)(iv) of Special Condition C8D (NTS gas entry incentives, costs and revenues) of National Grid Gas plc's gas transporter licence in respect of the NTS (the "NTS licence") to add an NTS entry point**

I refer to the notice (the "Notice") given by the Gas and Electricity Markets Authority on 4 August 2010 pursuant to Section 23(3) of the Gas Act 1986 (the "Act") that it proposes to modify the NTS licence in the manner set out in Schedule A to the Notice.

I confirm that, for the purposes of Section 23 of the Act, National Grid Gas plc hereby consents to the modification of its NTS licence in the manner specified in Schedule A to the Notice.

I note that at this time there is no requirement for a revenue driver, since a physical entry flow has not been requested at this location. If firm entry capacity were to be requested in the future, consideration of an appropriate revenue driver would be required prior to any firm incremental entry capacity release.

Yours sincerely
