4 August 2010

Dear Gareth,

**Notice of the requirement on DNOs to establish a DG connections guide and DG information strategy**

SSE welcomes the opportunity to comment on the draft directions on the above topics. We fully support the intent of the proposals in providing better information to prospective DG developers to aid and simplify the new connections process.

We believe that the requirement to establish a DG Connections Guide has effectively been completed, through work by all the DNOs, chaired by the ENA. We have no comment on the draft direction.

We support the need to develop a suitable DG Information Strategy for developers and will submit ours for Authority approval by 10 September 2010. Our intention is to ensure that all DG users of our networks have adequate information to the DG connections process. We will discuss the format of our Information Strategy with Ofgem over the coming weeks; as well as agree the timetable for implementation following its approval.

Yours sincerely,

Malcolm J. Burns  
**Regulation Manager**
