

Executive Summary

The optional appendices have been utilised to provide further background information which supports the material in the Full Submission, which due to limitations we have been unable to include.

In Appendix 1 there is information on The Co-operative Group and its proposed Northern Gateway development.

Appendix 2 contains the signed Memorandum of Understanding with The Co-operative Group and shows its support of and commitment to the NGSGP.

In Appendix 3 there is the substation analysis workbook which shows the details of substations within the NGSGP and those substations which will be included in distribution automation and substation monitoring.

Appendix 4 contains Electricity North West's risk scoring template.
