

# LCNF Full Submission

## Supplementary Answer Form

---

<b>DNO Name:</b>	Electricity North West Limited	<b>Question Number:</b>	ENWL028
<b>Question Date:</b>	17 Sept 2010	<b>Answer Date:</b>	21 Sept 2010
<b>Question Topic:</b>		Box 18	

<b>Original Question No:</b>		<b>Original Answer Date:</b>	
<b>Original Question:</b>			
<b>Original Answer:</b>			

<b>Question:</b>	Box 3 indicated that support for the Smart Grid Development Centre has been dropped. Please confirm why this is still included in Box 18.
------------------	---

<b>Answer:</b>	The Smart Grid Development Centre (SGDC), located at the University of Manchester, has been agreed in principle. Discussions are ongoing between interested "Founder" member organisations regarding an initial funding plan for the launch of the SGDC. At the time of drafting the Initial Screening Pro-forma it appeared the funding for the SDGC was in place and work would start in September 2010 to develop the centre and the Project would collaborate with SGDC for dissemination purposes. At the time of drafting the Full Submission it was unclear when the SGDC would receive the appropriate funding for it to launch and so due to this uncertainty a note was included in Box 3. The inclusion in Box 18 confirms our aspiration to the development of the SGDC and its use for dissemination, when it is launched.
