<b>DNO Name:</b>	Electricity North West Limited	<b>Question Number:</b>	ENWL011
<b>Question Date:</b>	15 Sept 2010	<b>Answer Date:</b>	12pm 20 Sept 2010
<b>Question Topic:</b>		Box 23	

<b>Original Question No:</b>		<b>Original Answer Date:</b>	
<b>Original Question:</b>			
<b>Original Answer:</b>			

<b>Question:</b>	Why has the Joule Centre not been identified as a project partner?
------------------	--

<b>Answer:</b>	The Joule Centre has been identified as an External Collaborator as they are contributing resources, in kind, to the Project. As there are ten External Collaborators, including the Joule Centre, in the Corridor Manchester Smart City Project and the space limitations of Box 22, the additional External Collaborators have been identified in Appendix 6. Note, the last External Collaborator table in Box 22 has been used as a signpost to point the reader to Appendix 6 (which has been attached to the response to question ENWL008).
----------------	---

<b>Attachments:</b>	PDF document: ENWL008 – Appendix 6 – Details of Further External Collaborators contains the information on the Joule Centre.
