

## Executive Summary

The optional appendices have been utilised to provide further background information which supports the material in the Full Submission, which due to limitations we have been unable to include.

In Appendices 1 and 2 there is the Strategic Vision of the Corridor Manchester which explains its uniqueness, and its aspirations to develop and growth the economic wealth of the area, and background information on the Corridor Manchester Partnership and the individual Corridor partner organisations.

In Appendix 3 there is the substation analysis workbook which shows the details of substations within the CMSCP and those substations which will be included in distribution automation and substation monitoring.

Appendices 4 and 5 and show further details on the commercial arrangements that we entered into with the CMSCP partners: included is the signed Memorandum of Understanding with Corridor Manchester and the template of the Statement of Intent that has been completed and signed by all the six Corridor partners respectively.

As there are sixteen External Collaborators in the Corridor consortium and we have only listed five of them in Box 22 the remaining External Collaborators are detailed in Appendix 6. All the External Collaborators have signed a Memorandum of Understanding with Electricity North West that specifies their involvement in the Corridor Manchester Smart City Project.

Appendix 7 contains Electricity North West's risk scoring template.
