| Original Question: | | | |
| Original Answer: | | | |

| | |
|------------------|---|
| Question: | If you are not awarded funds from the LCN, how will connections to the biomass/ new Coop building be met? |
|------------------|---|

| | |
|----------------|--|
| Answer: | We will fulfil our obligations under the Electricity Act and the Distribution Licence to connect new demand and generation customers and will comply with the common connection charging methodology with the application of historic solutions and their associated customer costs. Where we consider it appropriate to apply a new approach, and we have agreement from our customers we will use funding from either IFI or the First Tier of the Low Carbon Networks Fund. |
