<b>Question Topic:</b>		Derogations	

<b>Original Question No:</b>	SP007	<b>Original Answer Date:</b>	15 SEP 2010
<b>Original Question:</b>	If awarded funding, will you require a derogation, licence consent or exemption, or any change to the regulatory arrangements in order to undertake the Project or cater for contingencies?		
<b>Original Answer:</b>	At this stage it is not anticipated that any derogation, licence consent or exemption, or any change to the regulatory arrangements will be required in order to undertake the Project or cater for contingencies. Should this situation change then we would make Ofgem aware of such requirements as soon as this became apparent.		

<b>Question:</b>	You state that no derogations/exemptions are required "at this stage". Are you able to remove this qualifier? If not, please provide an example(s) of derogations/exemptions that might be required.

<b>Answer:</b>	During the installation and commissioning of equipment electricity supplies to customers will be interrupted, however this is not expected to be excessive or liable to significant CI/CML penalties. If for any reasons this turns out to be significant then we shall request that any penalties due to installation, commissioning or trialling work for this project are waived.
