Original Answer:			

Question:	Apart from first meetings with consumer consortia, many of the milestones occur in 2012 or later; can you highlight any further key points in 2011 that would indicate the project is on track?
------------------	---

Answer:	<p>A number of milestones occur in 2012 since this period is the culmination of a number of significant technical deployments on the critical path and with a number of interdependencies.</p> <p>The Gantt chart in Appendix D provides some more detail, and the Project will be tracked against this overall project plan to ensure deliverables remain on track. Interim milestones for these deployments; and “other item” milestones can be suggested as follows:</p> <p>Q2.2011 – Tracking and Inferencing Model specified Q2.2011 – ESCO Scope agreed Q3.2011 – Network Monitoring installs commence Q3.2011 – PV/Renewables Product Launch Q3.2011 – Network controlled Building Management Solutions Q3.2011 – Community Low Carbon Energy Advice Centre opened Q3.2011 – Low Carbon Energy Demo Centre build commence Q3.2011 – Identified areas for industry review Q4.2011 – Smarter Building in the Community evaluation</p>
