The Creation of a Revenue Protection Activity Co-ordination Agent (RPACA) and a Central Revenue Protection Unit (CRPU)

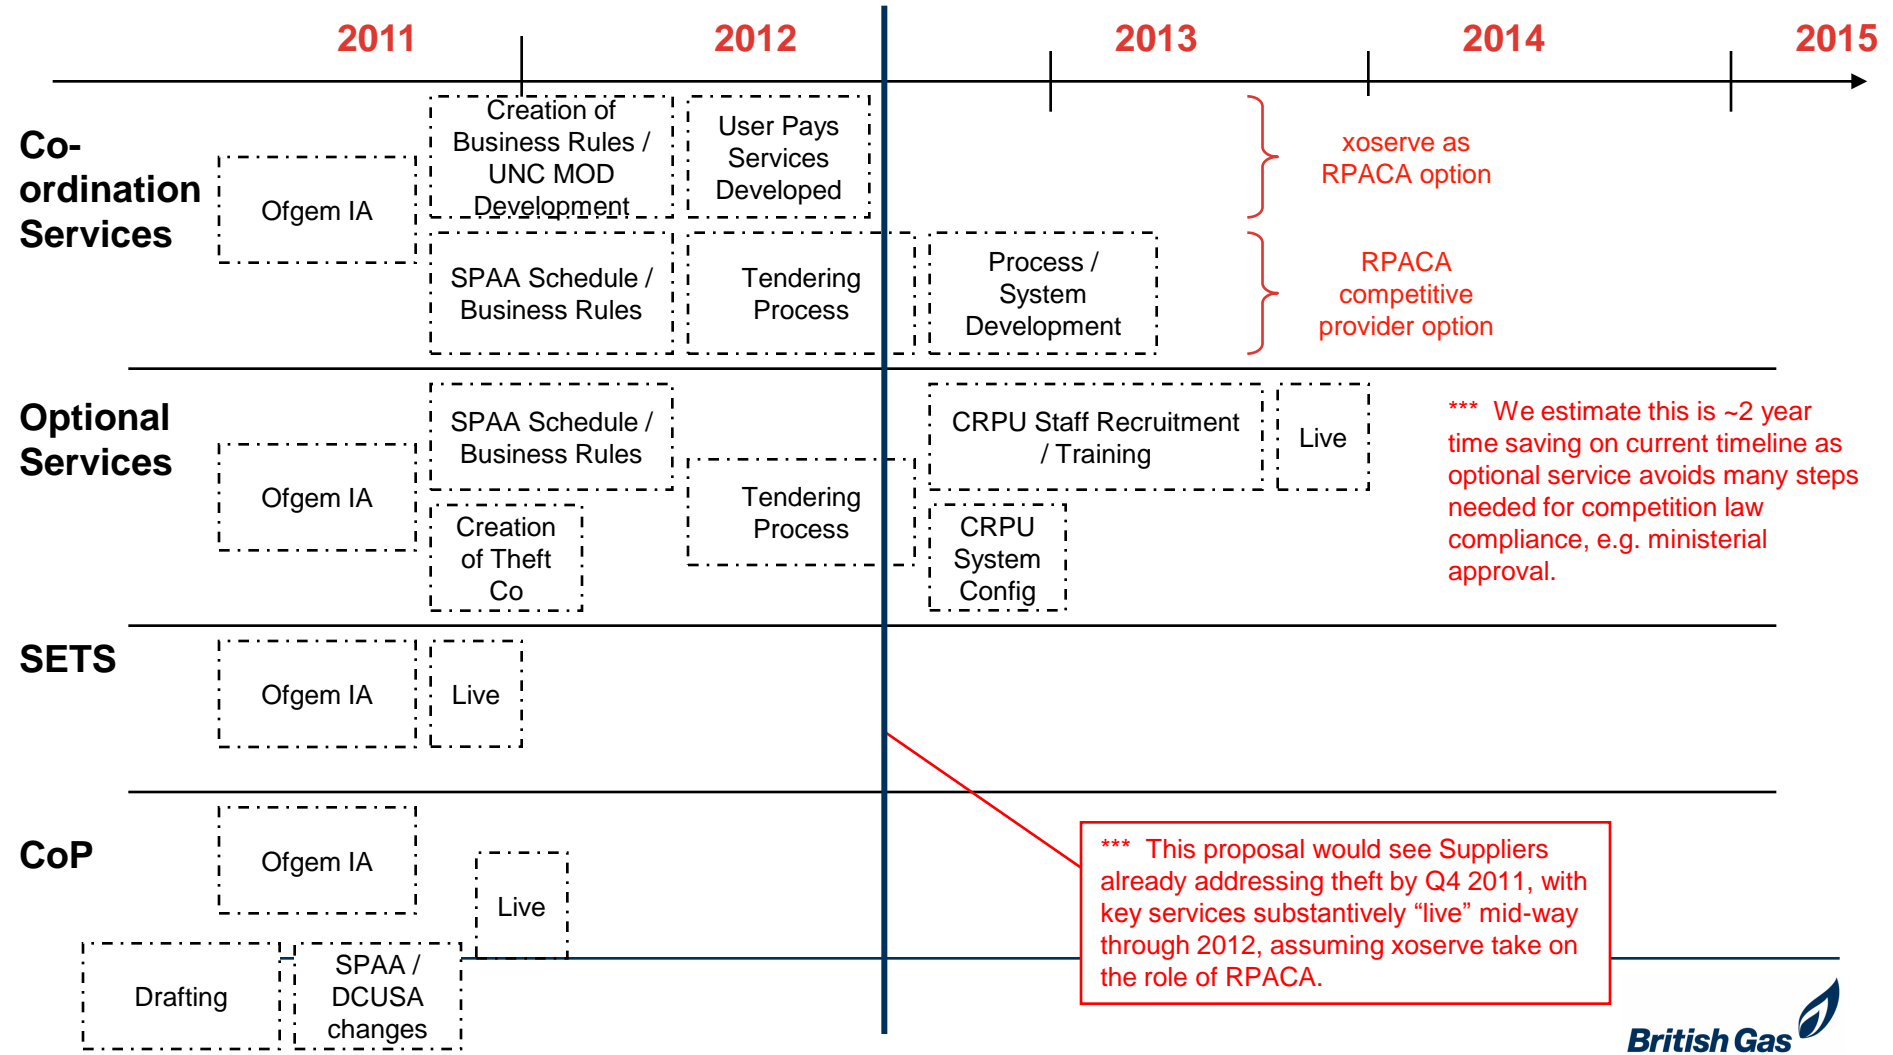

Appendix One – Indicative Implementation Timeline

Timeline

- The following slide sets out the indicative timeline for the delivery of each constituent part of this proposal,
 - the RPACA and CRPU (as defined in the main body of the Proposal to which this document is an Appendix),
 - the SETS and
 - the Code of Practice.
- For services considered by the RPACA, timelines are provided for both the scenario where xoserve are designated as the service provider, and the scenario where the role is filled following a competitive tender.
- Our conclusion is that, assuming the Ofgem Theft Impact Assessment delivers a decision in September 2011, SETS will be delivering benefits by early Q4 2011, with RPACA's services coming online at the end of Q2 2012.
