Dear Colleague

On the 20 June 2011 the Authority¹ issued a direction under section 23 of the Gas Act 1986 to modify National Grid Gas's (NGG's) gas transporter licence (the "Licence")².

This direction contained a number of modifications to the Licence including the addition of five new offtake points to tables 1 and 2 in Annex A of Special Condition C8E. As such, the direction included the revised text of Annex A updated to include the five offtake points.

The revised text contained in the modification direction excluded a number of earlier changes made to Annex A on the 2 June 2010³. Specifically, these were:

- The name change of 'Roosecote (Roosecote Power Station)' to 'Roosecote Power Station (Barrow)'
- The name change of 'Mosside' to 'Burnhervie'
- The name change of 'Phillips Petroleum, Teeside' to 'Phillips Petroleum, Teesside'
- The addition of 'Hatfield power station' with a baseline of 0 GWh/day

In our view, this exclusion has not materially affected the modification made by the Authority on 20 June 2011.

Appendix 1 contains a corrected version of Special Condition C8E Annex A which consolidates changes directed by the Authority on both the 2 June 2010 and 20 June 2011. Appendix 2 consolidates these changes into the list of "Relevant Points" for the purposes of compliance with Article 18(3) of the Gas Regulation (EC No 715/2009).

Yours sincerely
