Project code:	ENWLT2003	Question Number	17
Question date	1 September 2011	Answer date	6 September 2011
Submission section question relates to	4		
Topic	Evaluation Criteria		
Question	Please provide the supporting calculations for Carbon Emissions savings assessment.		
Notes on question	n/a		
Answer	<p>Appendix 11 to the Full Submission describes the Carbon Savings and Calculation Methodology in detail, supporting the summary information provided in Section 4 of the Full Submission. Appendix 11 was written to summarise the detailed Excel calculations and assumptions for an external audience.</p> <p>The calculations and methodology were developed within Electricity North West, with advice and review by Dr John Broderick of the Tyndall Centre for Climate Change Research at the University of Manchester, ensuring that the assessment is suitable for providing an indicative pre-Trial view of the carbon impacts of the C<sub>2</sub>C Method.</p> <p>As part of the dissemination for the C<sub>2</sub>C Project we shall publish the carbon calculations which will be carried out.</p>
