Topic	IIS		
Question	In your response to question 6 you confirmed that you were seeking protection from £125k of IIS penalties by including this amount in the funding request. I would be interested to know how this request aligns with the declaration of Direct Benefits under the same incentive. Were these benefits net of the penalties for which you'd applied for protection?		
Notes on question			
Answer	£125,000 has been requested to provide protection from potential IIS penalties. This protection has been requested to mitigate the costs of planned interruptions associated with the installation process of the project, i.e. replacement of 11kV switchgear etc. The direct benefits, as discussed in question 7, were not the net benefit of the penalties but the total benefit value.
