Date: 17 January 2012

Dear colleague

**Project TransmiT: invitation to stakeholder event – progress update**

Ofgem is holding an open event to provide stakeholders with an update on the progress of our work on potential transmission charging options under Project TransmiT. The event will be held on **Monday, 6 February 2012 from 1pm to 4pm** at Ofgem's offices, 9 Millbank, London, SW1P 3GE.

Project TransmiT is Ofgem's independent and open review of transmission charging and associated connection arrangements. Under our Significant Code Review (SCR) on electricity transmission charging arrangements in Great Britain, we issued our consultation<sup>1</sup> on 20 December 2011, setting out our assessment of the options for change, their impacts and our initial views on the way forward.

The event will summarise the information provided in our recent consultation, which closes on 14 February 2012. More importantly though, it is an opportunity for us to hear your views on our work with a view to informing the development of responses to the consultation.

**We invite expressions of interest from stakeholders to attend the event we are holding on Monday, 6 February. If you are interested in attending, please email [Project.TransmiT@ofgem.gov.uk](mailto:Project.TransmiT@ofgem.gov.uk) by Thursday, 26 January 2012.**

We are keen to ensure that a broad range of stakeholder interests are represented. However, practical restrictions may limit our ability to accommodate every request. We may therefore need to restrict attendance to one representative per organisation. We will shortly publish a draft agenda for the day on our website.

I look forward to seeing and hearing from you on the 6 February.

Yours sincerely

**Anthony Mungall**  
**Senior Manager, Transmission Policy**
