23 December 2011

Dear Sheona,

Consultation on proposed licence modification to Standard Licence Conditions C17, D3 and E16 of the electricity transmission licence (Transmission system security and quality of supply standard).

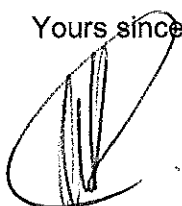

We welcome the opportunity to take part in this consultation.

Transmission Capital represents TC Barrow OFTO Ltd, TC Gunfleet Sands OFTO Ltd and TC Robin Rigg OFTO Ltd.

We support the proposed licence changes to bring into effect version 2.2 of the NETS Security and Quality of Supply Standard (NETS SQSS). We believe that the changes to the NETS SQSS are justified; providing the licensees with a revised framework for assessing the minimum transmission capacity requirements and helping to address the growing issues with the connection of intermittent generation. Transmission Capital is a member of the NETS SQSS Review Group.

Please do not hesitate to contact me if you would like to discuss this further.

Yours sincerely
