Dear Company Secretary

**Approval of revised statement pursuant to amended standard condition E12-J9
(Basis of transmission owner charges)**

Background

TC Robin Rigg OFTO Limited ("the Licensee") holds an offshore transmission licence ("the Licence") granted by the Gas and Electricity Markets Authority ("the Authority") under section 6(1)(b) of the Electricity Act 1989. Under its Licence, the Licensee is required to have a statement ("the Statement"), approved by the Authority, setting out the basis upon which it will charge National Grid Electricity Transmission plc ("NGET") for the services it provides. The services comprise:

- Transmission owner services;
- Connections to the Licensee's transmission system; and
- Outage changes.

The Licensee's Statement was approved on 2 March 2011.

The Licensee is required to periodically revise the Statement and shall, at least once in every year that the Licence is in force, make any necessary revisions to the Statement to ensure that the information set out in the Statement continues to be accurate in all material respects. In line with this obligation, the Licensee revised its Statement to amend the application deposit figures set out in Appendix 2. These relate to the sums to be charged to National Grid following an application for a new or modified connection to the Licensee's transmission system.

The Licensee submitted its revised Statement to the Authority on 16 November 2011. The Authority sent the revised Statement to parties to the System Operator-Transmission Owner Code (STC) on 8 December 2011, inviting them to comment. No comments were received. Other than the amendment outlined above, the revised Statement is the same as the one previously approved.

Authority's decision

Pursuant to paragraph 6 of E12-J9 of the Licence, the Authority hereby approves the revised Statement that was submitted to it by the Licensee and is set out in a separate Annex to this letter.

Should you wish to discuss this further, please contact my colleague Elizabeth Sinclair on 0141 331 6017.

Yours sincerely,

Mark Cox
Associate Director, Offshore Transmission

Duly authorised on behalf of the
Gas and Electricity Markets Authority
