

[REDACTED]

Dear Ofgem,

I am currently battling against Bgas.

They are now chasing me for neraly £5000.00 for an alledged missing out on renewal and subsequently doubling my electricity for one year.

Am spending huge amounts of time trying all avenues to get this wiped off.

At the time i had a "jodie crawford" as my business manager who had 4 ways of contact phones letter e mail she suddenly disappeared and my emails didnt get through. I feel totally let down by the whole system with no legal recourse. All through this two year saga i kept receiving letters like we are the most competitive we look after business we care about our customers you can rely on us to supply you hohoho!!!!

We should all get together and do a protest at windsor hq or at parliament anywhere that can get us some publicity. i would pay for banners etc.
