Dear Colleagues

Publication of DNO responses regarding Ofgem's Distributed Generation Forum 2011

Last year we held a series of forum events to understand the issues that distributed generation customers were experiencing when connecting to the distribution network¹. Following these events we wrote to the network companies requesting them to set out the steps they were taking to address the various issues raised. Please find attached as accompanying documents, published copies of the responses received from the DNOs.

We will issue a follow up letter outlining our next steps for these issues in due course.

Yours sincerely

Stacy Feldmann
Senior Policy Analyst
