Dear Andy,

**Consultation on proposed licence changes to facilitate open governance of the Common Connection Charging Methodology**

I am writing in response to the open letter and draft licence changes issued on 3 February 2012.

At this stage we believe that the draft licence changes are appropriate to reflect the intended incorporation into the DCUSA of the CCCM. We note that the draft conditions provide for a different incorporation date from 1 August 2012 to apply where advised by the Authority. We will continue to work with other DNOs and stakeholders to facilitate the incorporation of the CCCM into the DCUSA.

Yours sincerely,

**Paul McGimpsey**
