

CIRT

Crown Internet Routing & Tracking

What is CIRT?

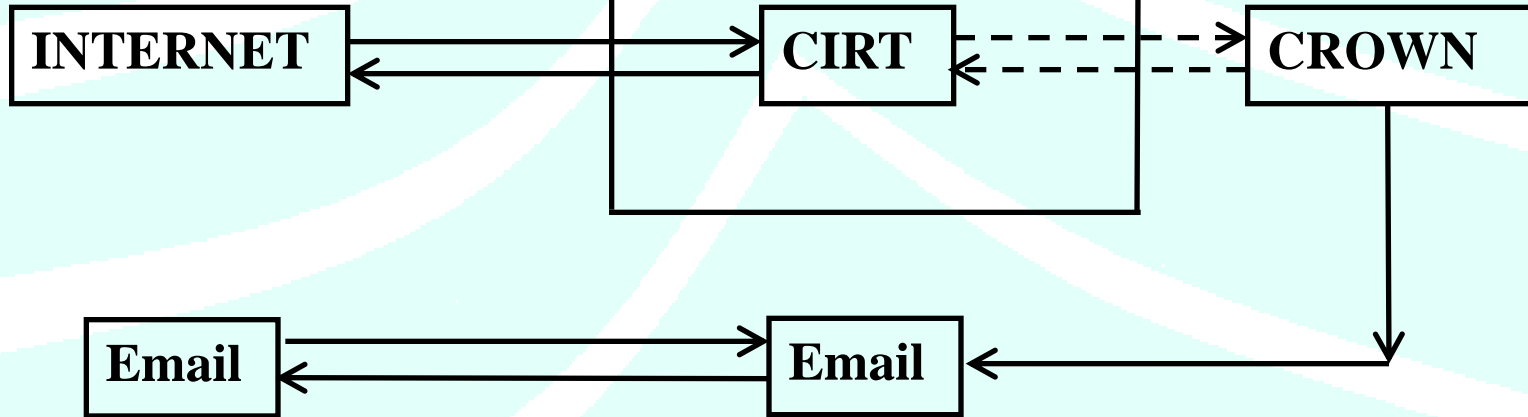

- IDNO and ICP interface to Crown
- Creates and routes connection enquiries
- Enables external tracking
- Manages 2 way activities
- Exchanges documents
- Manages inspection timetable
- Replaces CLMS, but not other methods

CIRT Infrastructure

WWW

AIR-LOCK

WPD

- - - - - ➤ Batch Processing
————— ➤ Real Time Processing

Registration

- Register at the Company, Organisational Unit and Individual level
- Provide a fixed IP address for Company and Organisational Unit levels
- Provide a NI Number at the Individual level
- Provide postal addresses and email addresses

Access

- Following registration you will be given a URL and Username
- You can then set up a private password
- You can then log on to CIRT
- You will have access to a detailed user guide
