Tick if this answer has been provided verbally: ☐

Project code:	SPD2004	Question Number	SPD007
Question date	23/08/2012	Answer date	30/08/2012
Submission section question relates to	Full Submission Workbook		
Topic	Project cost summary		
Question	How have the estimated costs for equipment, contractors and IT been derived? How have you ensured that these are realistic values and that is no systematic bias in either direction?		
Notes on question			
Answer	All costs have been developed at an itemised level using experience from previous LCNF, IFI and business as usual projects. All cost information was reviewed internally by a cross section of staff to ensure that the costs were realistic. A contingency has been included where there is a degree of uncertainty. As detailed in previous responses, a competitive process will be used to identify products and services which are not provided by partners to ensure value for money.
