

Received by email from Chris Greenwood – Lake District National Park Authority

Dear Ms Rossington

I am sorry that I have not had the opportunity to respond with a longer and more considered response but having read the overview document, in which I feel there is much that we can support, my views can be distilled to a few key points.

- The general principle of retaining the allowance for protected landscapes (para 5.30) is important and we are pleased to see it stated so clearly.
- We would like to see the scope of the scheme extended to include the candidate National Park extension areas
- We would like to see the scope of the scheme extended to include areas outside the National Park (the '10% allowance') where intervisibility with adjacent areas has the potential to affect the Special Qualities (as identified in Lake District National Park policy documents).

We hope you will take our comments into account and if there is any further information you require please contact me further.

Regards

Chris Greenwood
