Dear Nicholas

Re: Publication of decision letter and statutory consultation

I refer to GEMA's statutory consultation of the 3 August 2011 on the clarification of the charging boundary between the extra high voltage (EHV) and, high and low voltage (HV/LV) charging methodologies for Independent Distribution Network Operators.

I can confirm that The Electricity Network Company Limited makes no objection to the Authority's Collective Licence Modification Proposal (ref. 95/11).

Yours sincerely

Mike Harding
Head of Regulation
GTC
