Dear Colleagues,

MODIFICATION OF THE STANDARD CONDITIONS OF THE GAS SUPPLY LICENCE UNDER SECTION 23 OF THE GAS ACT 1986 – correction of typographical error to licence condition attached to modification

Our modification published on 31 October 12, titled Modification of the Standard Conditions of the Gas Supply Licence under section 23 of the Gas Act 1986¹ contained a minor drafting error. The modification inserted a new sub-paragraph to SLC 30.6:

(e) securing compliance with standard condition 12A

However, this numbering was incorrect and the Standard Licence Condition should state:

(f) securing compliance with standard condition 12A

Sub-paragraph (e) was inserted by modification on 28 June 2012² and as such the latest modification to this clause should have been labelled (f).

This letter serves as an addendum to the published modification. No other corrections are made to licence conditions attached to the notices.

Yours faithfully,

Colin Sausman
Partner, Smarter Markets
