Dear Sam,

### **Low Carbon Networks Fund – Electricity Demand**

Thank you for your recent letter with regards to the proposed change to the LCNF Governance v.5 to include measures for shifting or reducing electricity demand which benefits the DNO. We are in agreement that the current governance as it is drafted precludes such measures from being considered within the LCNF Tier 1 projects and welcome the proposed changes to the governance to allow this going forward. We believe that making such a change is to the benefit of customers and a significant benefit to aiding the low carbon transition.

Yours sincerely

**Martin Hill**
