

# Gas Network Innovation Competition Screening Submission Pro-forma

<b>Notes on completion</b>			
<p>Before completing this form, please refer to the Gas Network Innovation Competition (NIC) Governance Document.</p> <p>Please use the default font (Verdana size 10) in your submission, the text entry areas are predetermined and should not be changed. The full-completed submission should not exceed 10 <u>pages</u> in total.</p> <p>Ofgem will publish all the information contained within the Screening submission.</p>			
<b>Funding Licensee</b>			
<b>Network Licence Project Partners</b>			
<b>Funding Licensee area</b>			
<b>Project title</b>			
<b>Project Summary</b>			
<i>The Licensee must provide an approximate Project start and end date.</i>			
<b>Estimated Project funding</b>			
<i>The Licensee must provide an approximate figure of the total cost of the project and the NIC funding it is applying for.</i>			
<b>Total cost of Project</b>		<b>NIC funding requested</b>	
<b>Cross Sector Projects only: Requested funding from Electricity NIC, NIA or second tier LCN Fund?</b>	<i>If yes, please specify</i>		

## Problem

*The Licensee must provide a narrative which explains the Problem(s) which the Project is seeking to address.*

## Method(s)

*The Licensee should describe the Method(s) which are being demonstrated or developed. The Licensee must outline how the Method(s) could solve the Problem. The type of Method should be identified where possible eg technical, commercial etc.*

**Method(s) continued****Funding commentary**

*The Licensee must provide a commentary on the accuracy of its funding estimate. If the Project has phases, the Licensee should identify the approximate cost of each phase. IGTs should indicate potential bid costs expenses.*

**Specific Requirements** (please tick which of the specific requirements this project fulfils)

A specific piece of new (ie unproven in GB) equipment (including control and/or communications systems and/or software)	
A specific novel arrangement or application of existing gas transmission or/and distribution equipment (including control and communications systems software)	
A specific novel operational practice directly related to the operation of the gas transportation system	
A specific novel commercial arrangement	

**Accelerates the development of a low carbon energy sector & has the potential to deliver net financial benefits to existing and/or future customers**

*The Licensee must demonstrate that the Solution has the potential to accelerate the development of the low carbon energy sector in GB and/or deliver wider environmental benefits to GB customers. The Licensee must demonstrate the potential to deliver net financial benefits to existing and/or future customers.*

**Delivers value for money for gas customers**

*The Licensee must demonstrate that the Method(s) being trialled can derive benefits and resulting learning that can be attributed to or are applicable to the gas transportation system.*

**Demonstrates the Project generates knowledge that can be shared amongst all Licensees**

*The Licensee must explain the learning which it expects the Method(s) it is trialling to deliver. The Licensee must demonstrate that it has a robust methodology in place to capture the learning from the Trial(s).*

<b>Please tick if the project conforms to the default IPR arrangements set out in the NIC Governance Document?</b>	
--------------------------------------------------------------------------------------------------------------------	--

*If the Licensee wishes to deviate from the default requirement for IPR then it must demonstrate how the learning will be disseminated to other Licensees and how value for money will be ensured. The Licensee must also outline the proposed alternative arrangements and justify why the arrangements are more suitable than the default arrangements.*

<b>How is the project innovative and with an unproven business case where the innovation risk warrants a limited Development or Demonstration Project to demonstrate its effectiveness.</b>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

*Demonstrate why the Licensee has not previously used this Solution (including where the Solution involves commercial arrangements) and why NIC funding is required to undertake it. This must include why the Licensee would not run the trial as part of its normal course of business and why the Solution is not Research.*

## Project Partners and external resourcing/funding

*The Licensee must provide evidence of how Project Partners have been identified and selected, including details of the process that has been followed and the rationale for selecting participants and ideas for the Project.*

*The Licensee should provide details of any Project Partners who will be actively involved in the Project and are prepared to devote time, resources and/or funding to the Project. If the Licensee has not identified any specific Project Partners, it should provide details of the type of Project Partners it wishes to attract to the Project.*

### **Derogations or exemptions**

*The Licensee should outline if it considers that the Project will require any derogations, exemptions or changes to the regulatory arrangements.*

### **Customer impact**

*The Licensee should outline any planned interaction with customers or customers' premises as part of the Project, and any other direct customer impact (such as amended contractual or charging arrangements, or supply interruptions).*

### Details of cross sector aspects

*The Licensee should complete this box only if this Project forms part of a larger cross sector Project that is seeking funding from multiple competitions (Gas NIC, Electricity NIC or LCN Fund). The Licensee should explain about the Project it will be collaborating with, how it all fits together, and must add a justification for the funding split.*

<b>Any further details the Licensee feels would add to the submission</b>
