# Group Discussion

**ofgem**

RMR:Third party intermediary(TPI) working group
2<sup>nd</sup> Session

---

### *Breakout group discussion*

**Group 2 & 2B**

### *Topic*

**'The Structure of a Code of Practice'**

**Sample : The OFT code approval scheme framework**

Attached is the list of section criteria within the structure used by the OFT as a guideline for organisations when assessing whether a new Code of Practice will be fit for purpose.

We are using this as a **sample structure** for this group discussion.

Please discuss each section, paying particular attention to the content of the code (section 3) and assess the applicability of each one in relation to a future Code of Practice for TPIs.

When reporting back to the group can you please structure your results into pros and cons for each section and a short summary as to your reasons.
