February 2013			
March 2013			

\* This data can be viewed from your Renewables & CHP Register account within the 'View Output History' section of the 'Output Data' section for each relevant scheme.

\*\* As well as completing this form so the changes to output data for your scheme are captured within the annual reconciliation round please also enter the late/amended output data into the Renewables & CHP Register to ensure your account is fully up to date.

\*\*\* Please ensure you hold evidence of meter reads to support output data for the period 1 January 2012 to 31 March 2013 in case this information is required to support data used for reconciliation
